

Countmaster CS 454

Note counting machine

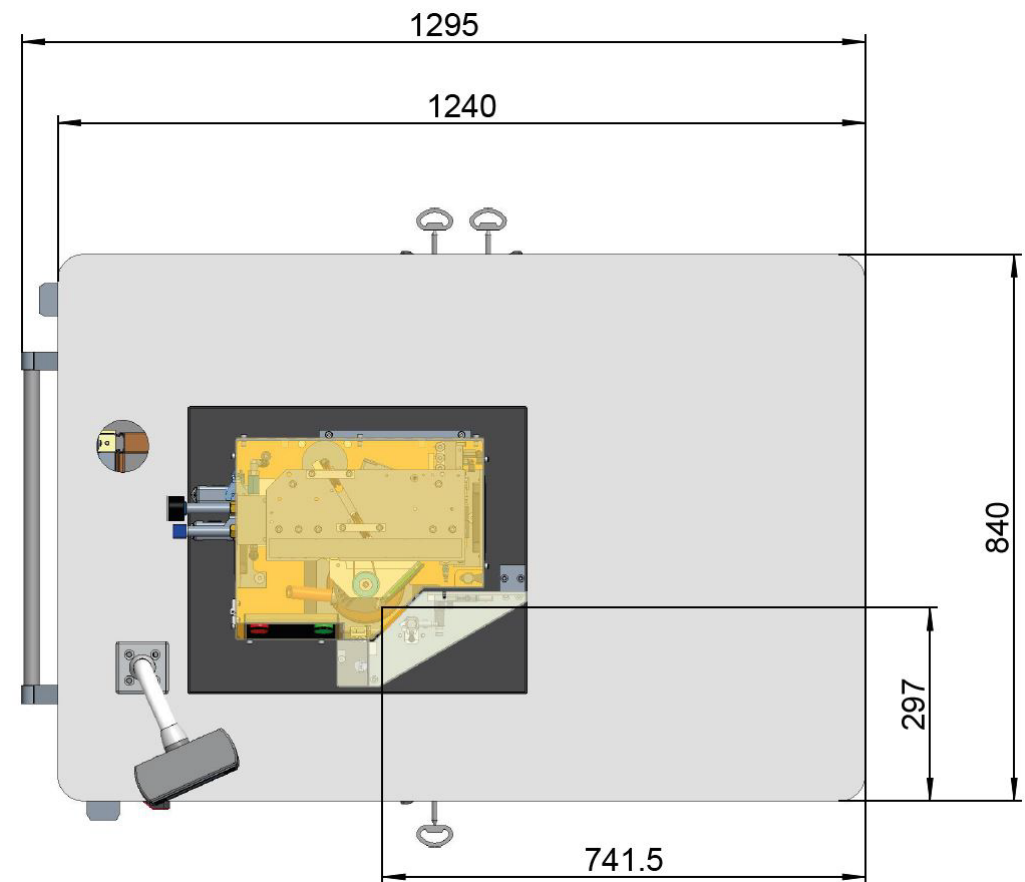

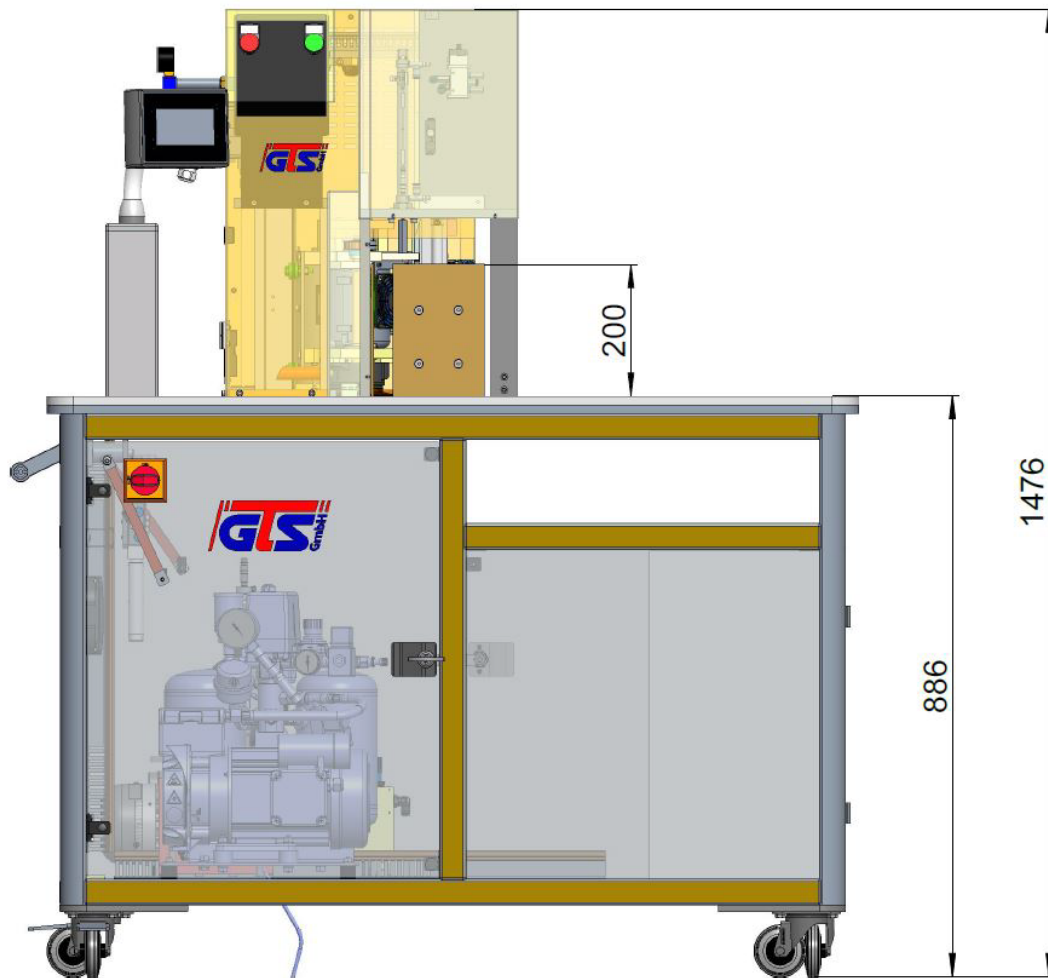

Technical specifications:

Max. counting speed:	depends to disk (page 5)
Countable material:	paper
Weight of the material:	depends to disk (page 5)
Max. paper cut size:	297 x 740 mm
Min. paper cut size:	50 x 80 mm
Electrical connection:	Three phases / 400 V AC / 50-60 Hz.
Power:	3,5 kW
Dimensions:	1295 x 840 x 1475 mm (L x W x H)
Weight:	approx. 180 kg

Countmaster CS 454

Layout:

Basic configuration:

- Programmable Logic Controller available
- Operation and setup of the machine by multi-lingual full colour touch screen
- Easy and fast to operate
- Internal memory to store counting results
- Integrated vacuum pump
- Machine designed for multi-shift operation
- Maintenance unit for compressed air
- Save your counting results on an USB
- Counting results only deletable by authorized operators (password protection)
- Counting results (good/bad) can be symbolized by colours (green/red) in the full screen of the operating display
- Maintenance friendly
- Transport rolls
- USB, ethernet, RS232 interface

Countmaster CS 454

Counting disk information:

Features:	Counting disk V8	Counting disk C3
Number of segments	6	6
Diameter	119,6 mm	119,6 mm
Grammage	50 - 120 gramm	35 - 140 gramm
Paper offset	- 1 mm	- 3 mm
Max. counting speed	8600 notes / min.	8600 notes / min.
Range of application	corner counting	corner counting

Countmaster CS 454

Options:

- Special voltages (OP0036_10319_0)
- Integrated compressor (OP0004_10319_0)
- vacuum generator (OP0103_10319_0)
